

FLIP THAT CLASS!

- The best thing about Free Screen Video Capture is when you finish it is easily uploaded onto YouTube! Using the Free Screen Video Capture program puts your video in a format compatible to upload to YouTube. This will allow students, parents, or whoever to see just what you are offering in your classroom.
- There are ways to use an iPad to screencast as well. While all you will need is your iPad, the apps available only let you upload to their site essentially making your lessons theirs (my humble opinion). A couple of apps allowing you to do this are:

- ScreenChomp
- ShowMe
- Educreations Interactive Whiteboard

HOW TO MAKE KHAN ACADEMY LESSONS

Mr. Madison Burris

2nd Grade Mathematics

West Louisville Elementary School

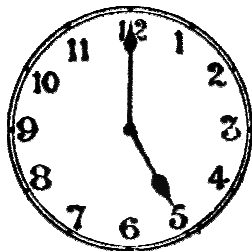

madison.burris@daviess.kyschools.us

Why???

Creating Khan Academy style lessons can be easier on you as an educator. While it may take a while to get used to screencasting, once you have completed a lesson it will always be at your disposal. I started doing screencasting because I thought my students at the end of the day were getting a watered down version of what my first classes were getting. After teaching the same content class after class, you tend to get less enthusiastic and may even leave some things out. Not only will your students get the best of you everyday, they will be able to watch the lesson anytime the need to! It is great for parents as well! They can watch the videos at home with their child so they may know how and what you are doing. It is also great for when you may be absent. The best educator is always the primary teacher. The only way to be there when you are not is by screencasting.

Screencasting can be a major time saver

Software&Equipment

Turtle Beach Headset used as a microphone

Screencasting is a whole lot easier than you would think! I can almost guarantee you may already have all the equipment necessary in your classroom or at your school.

EQUIPMENT:

- Computer: Laptop/Desktop
- Microphone: record voice
 - I use my old videogame headset
- Wacom Bamboo Tablet
 - I prefer the CAPTURE because it can be made wireless

SOFTWARE:

- Free Screen Video Capture
- Smooth Draw 4

OPTIONAL EQUIPMENT:

- Document Camera
 - Allows for hands on demonstration

Where and How Much?

Below are the prices and where I found each. Please note some prices may have changed.

Wacom Capture Tablet: 79.99

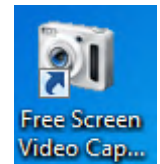

BestBuy online: <http://goo.gl/4NoSZM>

Free Screen Video Capture: FREE

<http://goo.gl/HdSTXL>

Smooth Draw 4: FREE

<http://goo.gl/MaZvr>

Turtle Beach Headset PX21: 71.96

Walmart online: <http://goo.gl/xGKVAu>

NOTE: any microphone will work
